COLOR TUMBLE FEATURE

The COLOR TUMBLE feature means that after every paying symbol win all clusters of minimum 5 symbols with backgrounds of the same color, adjacent anywhere horizontally or vertically, explode and disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with symbols coming from above.

Color tumbling will start only if there is at least one background color cluster present on the screen after any paying symbol win. Tumbling will continue until there are no more background color clusters present on the screen.

All symbols exploded as part of the COLOR TUMBLE feature get collected in a meter. For every 20 symbols collected, 1x multiplier is added to a win multiplier. The win multiplier applies to the total of all wins resulted from the same base spin, after all color tumbles ended. The multiplier resets back to 1x after every base game spin.

All wins are added to the player's balance after all of the paying symbol wins and color tumbles resulted from a base spin have been played.

FREE SPINS RULES

Hit or collect 3 or more SCATTER symbols to trigger the FREE SPINS feature.

The round starts with 15 free spins.

The round has a progressive feature. All symbols collected as part of the COLOR TUMBLE feature count towards the increase of the win multiplier which does not reset between free spins until the end of the round.

Hit or collect 3, 4 or 5 or more SCATTER symbols during the round, on the same free spin, to retrigger the feature and get 5, 10 or 15 additional free spins respectively.

Special reels are in play during the feature.
