MEGAWAYS

Game Description (for Players)

Blast off into space for a fun-filled journey with Rocket Blast Megaways™.

Aliens and colourful gems appear across six ever-changing reels, alongside Wilds which can substitute for all symbols except Scatters, appearing on every reel aside from the first. Scatters will trigger the free spins round whenever four or more land on any spin.

The tumble feature sees winning combinations removed from play, with the remaining symbols falling to the bottom of the screen and empty positions replaced with new ones. A special rocket feature also makes an appearance, transforming any symbols it lands on into Wilds. These symbols are then locked onto the reels, nudging down one position after each tumble and adding further Wilds to the top of the grid until the spin has finished which can accelerate the winning potential of the slot.

TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with new symbols coming from above. New symbols are of the same size as the initial spin result, before tumbles.

Tumbling will continue until no more winning combinations appear as a result of a tumble.

All wins are added to the player's balance after all the tumbles resulted from a base spin have been played.

ROCKET FEATURE

This is the ROCKET symbol. Whenever it hits all symbols under it transform into WILDS. Then the WILDS added by the rocket symbol, whether they are part of a winning combination or not, will nudge down one position at every tumble, until all of them are out of the screen. For each nudge a new symbol will appear at the top of the reel with the WILD symbols.

This is the SCATTER symbol. It appears on all reels.

Hit 4 or more SCATTER symbols anywhere on the reels to trigger the FREE SPINS feature.

The SCATTER symbol does not explode during tumbles.
