

Gluttony

ORDER UP!

Diets? Exercise? Not for us. We hope you're in the mood for food, cos we're flipping the food pyramid upside down - and stuffing it right into this fat bastard's mouth.

Bigger is better and moderation is NOT key , so let loose and dig in.

*The Nolimit Bonus feature may however be removed in some regulated markets.

** DX4 Version for use in DE market only.

FEATURES IN THE GAME

REEL AREA

- A 5-reel, 5-row reel area.
- Winning combinations will be destroyed and remaining symbols will tumble down, allowing the new symbols to fall in.
- Whenever symbols visually upgrade, they multiply their value by two permanently, until a new round begins.

FEATURES IN THE GAME

SCATTERS

There are 2 types of Scatter symbols: Silver Bell Scatter and Golden Bell Scatter.

Silver Bell Scatter symbols can only land on reels 2-4

Golden Bell Scatter symbols can only land on reel 3, with no more than 1 per spin.

Free spins can be activated by combinations of Silver and Golden Bell Scatter symbols:

- 3 Silver Scatters = 8 Free spins of "Order Up!".
- 1 Golden and 2 Silver Scatters = 10 spins of "Double Up!" and an x2 multiplier.
- 2 Golden and 1 Silver Bell Scatter = 12 spins of "Quadruple Up!" and an x4 multiplier.
- 3 Golden Bell Scatters = Will award +6 spins and enter "FEDCON 1"

Every Golden Bell adds +2 free spins and increases the current multiplier by x2.

During FEDCON 1, Golden Bell can only land on the outer reels which permanently multiplies all the outer reel values by two.

FEATURES IN THE GAME

xZONE™ SAUCE

Applies +1 multiplier value on every regular paying symbol and Wild adjacent to it; vertically, horizontally and diagonally.

Multiple XZ-Sauce can land on the same row but not on the same reel.

During FEDCON 1, XZ-Sauce can only land on the inner reels, applying +1 multiplier for all connected paying symbols.

FEATURES IN THE GAME

WILD POT

Wild Pot can land only during Order Up!, Double Up!, Quadruple Up! and FEDCON 1, on reels 2-5.

Wild Pot acts like a Wild.

If the Wild Pot contributes to a win, it will try collect any nearby Food symbols, horizontally & vertically, increasing its multiplier for each by;

- Low paying symbol = +1 per winning symbol.
- Medium paying symbol = +2 per winning symbol.
- Wild = +2 per winning symbol.

If the Wild Pot manages to collect, the Wild Pot will become sticky with an increased multiplier for one more hit, otherwise it gets removed.

After collecting, the Wild Pot stays there with its size as a special Wild for the next avalanche.

During FEDCON 1, the Wild Pot can only land on the inner reels and will now collect all the food symbols on its connected outer reel, preventing these symbols to be contributed to the Fat Bastard's progression.

FEATURES IN THE GAME

GOLDEN BELL MODE

2 FREE SPINS

2+2 FREE SPINS

GOLDEN BELL SPINS

Landing 1 Golden Bell activates Golden Bell Spins and awards +2 respins and an x2 multiplier.

Landing another Golden Bell in Golden Bell Spins will award +2 respins and the multiplier goes to x4.

3 Golden Bells won in succession will trigger FEDCON 1.

The multiplier will reset after every new bet.

FEATURES IN THE GAME

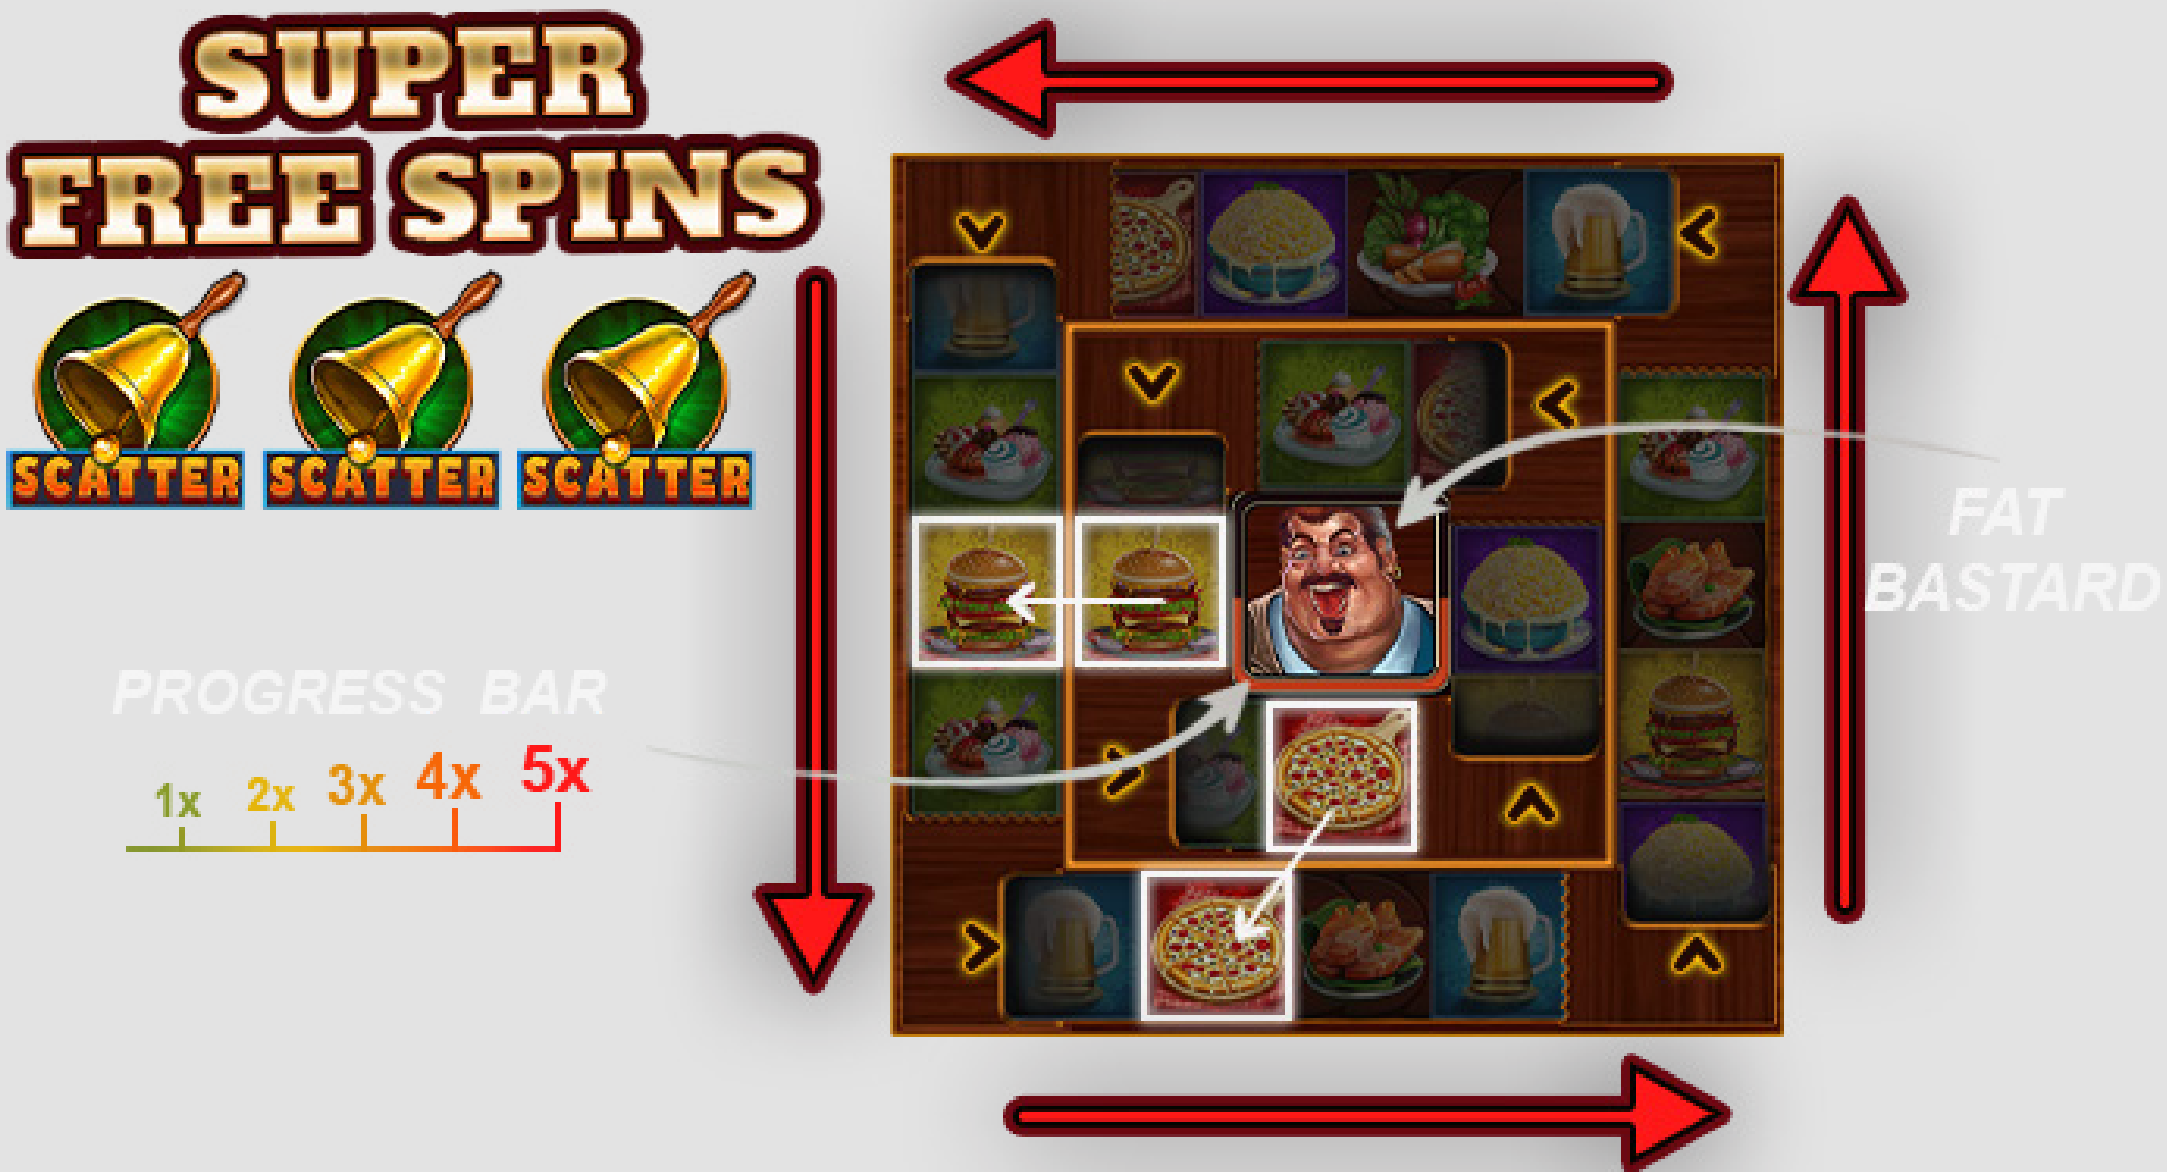

ORDER UP!

For every Golden Bell landed, "Order Up!" will upgrade and award +2 spins and increases the multiplier by x2.

If a golden Bell lands and the current multiplier is x4 the Order up! will be upgraded to FEDCON 1 and awards +6 spins.

Free spins cannot be re-triggered.

FEATURES IN THE GAME

FEDCON 1

Landing 3 Golden Bell Scatters awards +6 spins.

Every win goes from Fat Bastard as it is the starting point for any win.

For every new level reached, +2 free spins are awarded, +1 multiplier on Fat Bastard and triggers a respin.

In order to upgrade to upper levels the player needs to collect the following number of winning Symbols:

- Level 2 = 20
- Level 3 = 30
- Level 4 = 40
- Level 5 = 50

The following winning symbols with their weight will add to the progression bar:

- Low paying symbol = +1 per winning symbol
- Medium paying symbols = +2 per winning symbol
- Wild = +2 per winning symbol

Exceeding collect will be carried over.

FEATURES IN THE GAME

HEART ATTACK

The max payout of the game is 32,000 times the base bet.

When the total win exceeds this amount, the game round will end and 32,000 times the base bet is awarded.

FEATURES IN THE GAME

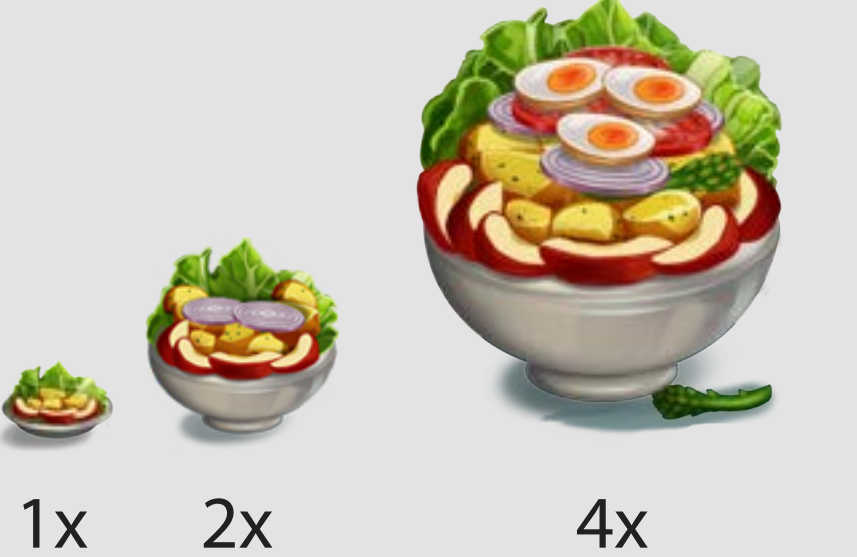

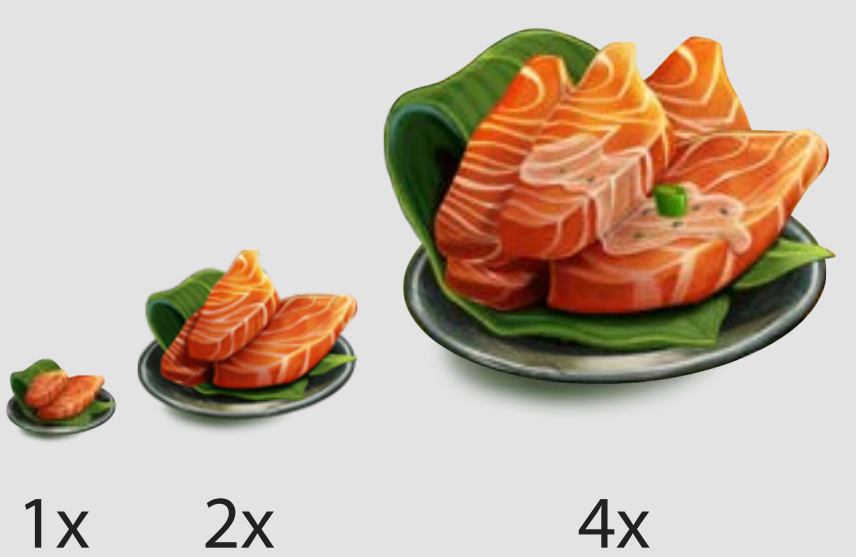

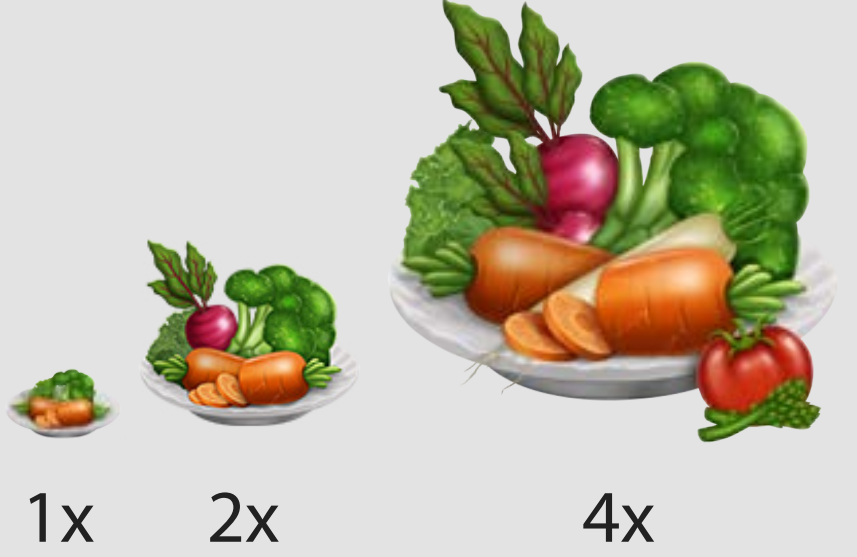

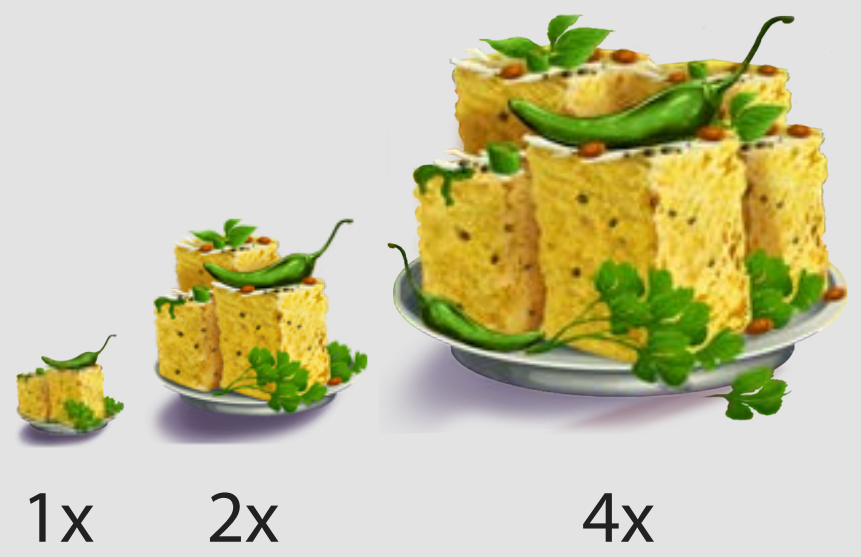

NOLIMIT BONUS - FEATURE BUY FUNCTIONALITY

Buy your way straight into the different bonus features, ranging from 100 to 1000 times the base bet.
The Nolimit Bonus feature may however be removed in some regulated markets.

CROSSLINK WINS

WIN

NO WIN

Winnings are calculated by multiplying the value of the symbol in the paytable and the number of the ways of the winning symbol.
A winning combination of the same symbol pays from left to right. A malfunction voids all winnings.

How to describe Gluttony

- Gluttony revolves around the comical exaggeration of one man's never ending appetite. With a fittingly chaotic cross-links super free spin mode and the brand new xMechanic 'xZone™' making its debut - Gluttony is sure to hit the spot for fans of NLC all over.
- Diets? Exercise? Not in this slot. We hope you're in the mood for food, cos we're flipping the food pyramid upside down - right into this fat bastard's mouth.
- Clog your arteries and come on down to Gluttony, where bigger is better - moderation is NOT key - and of course, there are no limits.
- A meal to die for! The max payout of Gluttony is a heart-attack-inducing 32,000x the base bet!
- Buy your way straight into the different bonus features, ranging from 100 to 1000 times the base bet.*

*The Nolimit Bonus feature may however be removed in some regulated markets.
