Game Features

Cluster Payout

Cluster wins are achieved with five or more matching symbols that are touching horizontally and/or vertically. **After a winning cluster, the symbols are destroyed allowing new ones to drop in.**

xBomb® Wild

Wall? What wall? An exploding xBomb Wild removes adjacent symbols except for Scatter and xNudge symbols increasing the win multiplier by one for the next collapse.

If the xBomb gets split, it will increase the win multiplier for the next collapse with the amount it has been split into.

Boosted xRip®

At a cost of an extra 50%, the player is guaranteed a Scatter symbol on reel 1. When Boosted xRip is activated, there are no payout for the winnings below the base bet. The payout for each symbol is not affected.

Mule Spins

Freedom awaits! 6 Scatters will trigger 10 Mule Spins.

When xWays is part of Cluster wins, Cluster symbols on the same reel would be infected before the xSplit and xNudge get into action. xWays revealing 2 or 4 symbols would infect them to split into 2 or 4 symbols respectively.

Landing additional Scatter symbols in Mule Spins will upgrade the bonus mode to Coyote Spins, awarding 2 extra spins per Scatter.

Coyote Spins

7 or more Scatters trigger the Coyote Spins. 7 Scatter symbols award 12 spins, and any additional Scatter symbols will award 2 extra spins per symbol.

xWays symbols will infect Cluster symbols, but unlike Mule Spins all the cluster symbols will get infected.

All xBombs will add +1 symbol value on all symbols with an xX indicator that are not blown away.

The win multiplier count does not reset during the Coyote Spins.

xCluster® - During Bonus Modes

Illegals intercepted! 2 or more unique symbol clusters in the same avalanche would trigger xCluster - increasing the win multiplier by +1 for each unique symbol cluster from the second cluster onwards.

The xCluster multiplier is instantly added and affects all current wins of that spin.

xNudge® Cluster Wild

xNudge Cluster Wild is a Wild symbol that can nudge both up and down if it's a part of a winning cluster and increments the win multiplier by +1 for each symbol it nudges over.

The nudge continues until no further symbols are part of a winning Cluster. If the xNudge Cluster Wild has been split by an xSplit, it will start by adding its own multiplier to the overall win multiplier.

Seized and Destroyed

Not on our watch! The max payout of the game is **44,288** times the base bet.

Nolimit Bonus - Feature Buy Functionality

Buy your way straight into one of the different bonus features, ranging from 98x to 914x the base bet.

** The Nolimit Bonus feature may however be removed in some regulated markets.*
