FEATURES IN THE GAME

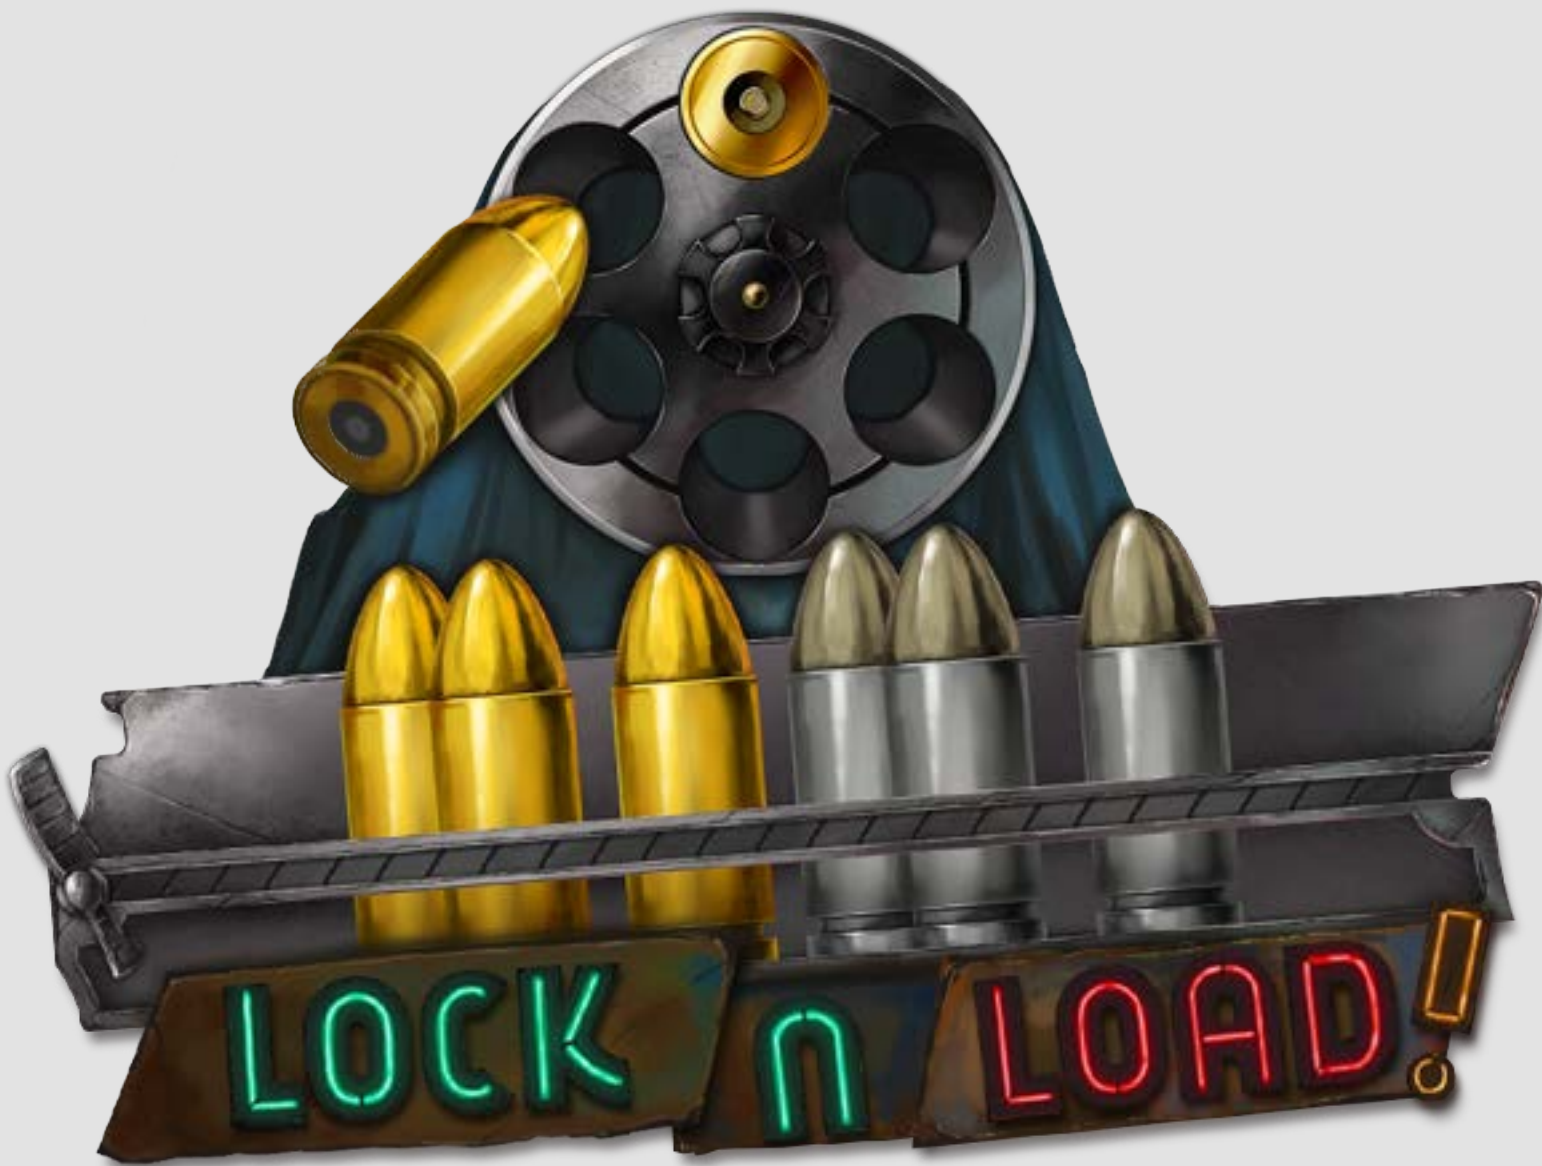

REEL AREA

A reel area with three rows and five columns.

Winning combinations will be removed and allows new symbols to fall in. When the winning symbols are destroyed, all remaining symbols will tumble downwards before new symbols fall in.

Winning combinations on xWays® symbols will allow for additional symbols of the same size to fall in.

FEATURES IN THE GAME

LOCK 'N' LOAD

Every time a winning combination occurs; the next group of bullets will be loaded into the cylinder. The feature will activate once it's fully loaded with six bullets and no more winning combinations occur.

Once activated, the bullets will be randomly fired at the high paying character symbol on the reels. The characters that are hit, will be replaced by an overlay Wild.

If there are five or less high paying symbols on the reels, the unused bullets will be saved in the cylinder for later.

FEATURES IN THE GAME

xWAYS®

xWays® symbols will expand to 2 or 4 symbols - always creating half symbols. Half symbol sizes pay the same as a normal sized symbol.

Half symbols sizes will remain until there is no more wins or avalanches.

FEATURES IN THE GAME

SCATTERS

Three Scatter symbols will trigger Whacked Spins. Whacked Spins always start with a collected value of x1 the base bet for each reel.

FEATURES IN THE GAME

WHACKED SPINS

Whacked Spins start with three spins. The spins will reset to three as soon as any win is collected. Coin values, xWays[®] symbols and xNudge[®] symbols[®] all reset the spin count to three.

Coins will hold a value times the base bet. All winnings during the spins will be added to the counter in the bottom of each reel. All collected values will be added together for a total win after Whacked Spins end.

If the xRevolver cylinder symbols lands, it will award one of the 6 options within the cylinder. It can any of the following symbols;

- Coin Value
- xWays[®]
- xNudge[®]
- Russian Roulette.

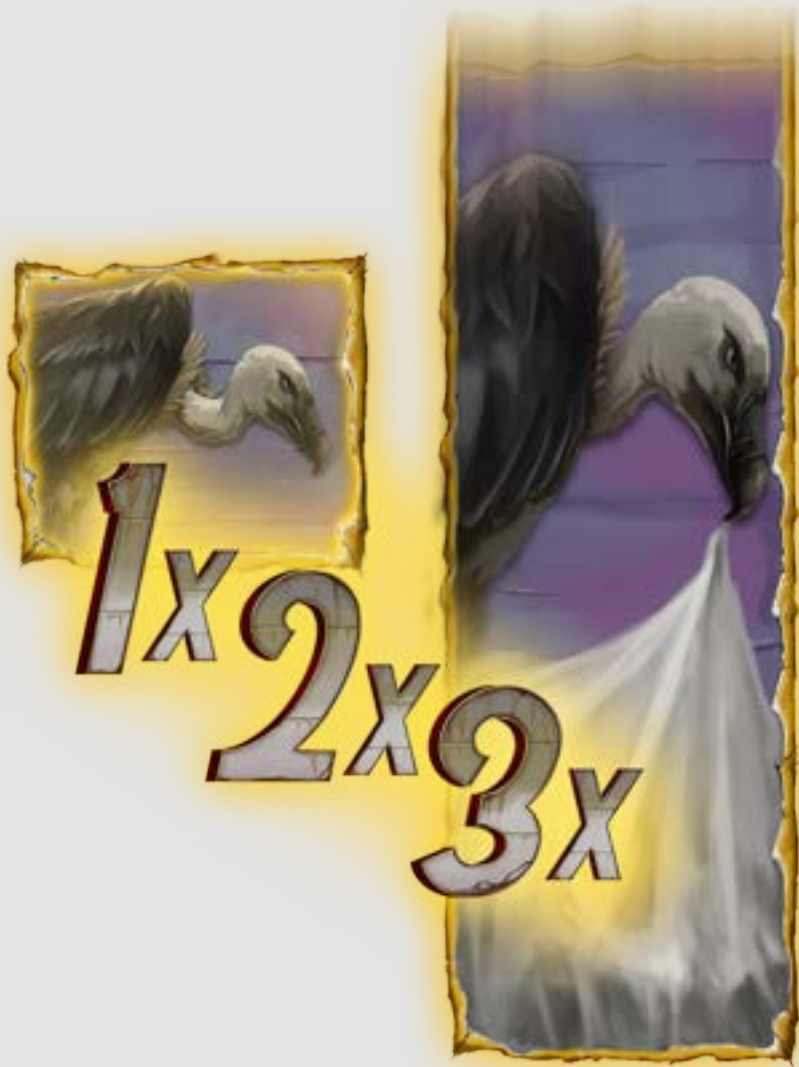

FEATURES IN THE GAME

WHACKED SPINS: xWAYS®

In Whacked Spins, the xWays® symbol will expand to always reveal three coin values.

The xWays® symbol will hold coin values ranging from 1 to 20 times the base bet.

WHACKED SPINS: xNUDGE®

xNudge® symbol will expand and award three multipliers of x1, x2 or x3 - depending on where it lands. For each nudge the symbol makes, it will award +1x on its multiplier.

Each xNudge® value will multiply the collected value at the bottom of the reel.

FEATURES IN THE GAME

WHACKED SPINS: RUSSIAN ROULETTE

Russian Roulette can only be awarded from the xRevolver symbol. When the Russian Roulette is activated, the spins will be reset to three once again, but will not be able to reset again.

Instead of adding up the winnings on each reel, the winnings will instead be multiplied with eachother into a total win.

FEATURES IN THE GAME

LAST MAN STANDING

The max payout of the game is 11,912 times the base bet.

When the total win exceeds this amount, the game round will end and 11,912 times the base bet is awarded.
