Dragon Nudge*

COINS OF FORTUNE

Coins of Fortune is inspired by a mesmerizing south-east asian city and its old traditional heritage, all mixed into a mysterious melting pot of mythical creatures and neon lights.

Coins of Fortune has 20 fixed betlines on a 5x3 reel area. The Dragon Nudge feature and the Lucky Respin feature will keep the players on their toes in their chase of these high-potential features.

The Dragon Nudge will award three respins with a stacked wild that nudges and the Lucky Respin will award respins with walking wilds that progress as long as there are wilds present.

Game Features

Coins of Fortune is a 5x3 respin slot with two prominent features that will keep the excitement going for more and more spins – Dragon Nudge stacked wilds and the running bonus mode Lucky Respin.

Dragon Nudge

When you land the same three symbols on one reel, the Dragon Nudge respin is triggered. On the reel where the symbols landed reveal a stacked Dragon Wild overlay during the respin. The Dragon Nudge will move downward for each respin, any additional Dragon Nudge pro-longs the respin mode!

Lucky Respins

Land 3 or more scatters and you will be awarded the Lucky Respins. All scatters during the Lucky Respins walk left, and be collected once they move outside the reel area. The win multiplier increases for every third collected scatter. Any Dragon Nudge that is triggered will turn into coins, for one massive multiplier bump!
