GAME FEATURES

Reel Area

The game area is divided into four cross sections, each containing four symbols connected in the center by a Devil Wild.

Winning combinations are removed and remaining symbols fall towards the center. New symbol falls in to fill the empty spaces.

Cross Multiplier

When a win occurs then the same kind of symbol will be removed from the other cross sections if they are not a part of win.

Each symbol removed this way increases its cross section multiplier by 1.

Wins are multiplied by their respective cross section multiplier.

Cross Wilds

Any paying symbol next to the center position may randomly become a Wild symbol.

Scatter

Scatter symbol may appear in the center row/column of their cross section.

When a Scatter symbol appears next to the center position, the remaining symbols in it's cross section become inactive and symbols of the same type are removed from the other cross sections. Removed symbols can no longer appear for the remaining drops.

Each symbol removed this way increases its cross section multiplier by 1.

GAME FEATURES

Redemption Spins

Landing 4 Scatter symbols will activate Redemption Spins. The feature starts with 3 spins and will reset to 3 spins every time a coin lands in the reel area. All coin values are valued as times the active bet.

When a column is entirely filled with coins a feature will be awarded for that column on each following spin. The feature affect coins on the column it is on. Below are the features that can be triggered:

Gluttony

Add it's value to all coins value.

Wrath

Multiplies the value of a randomly selected coin on it's row/column.

Lust

Progresses a step towards upgrading Redemption Spins.

Greed

It selects a random coin from it's row/column which collects all the coin values from it's column/row respectively.

Envy

Turns a randomly selected coin's value into a copy of the highest current coin value in the entire reel area.

Pride

It selects a random coin from it's row/column and add it's value to all other coins on it's column/row respectively.

Redemption Spins can be upgraded either by collecting 4 levels in the upgrade bar or when all 4 Scatter lands next to center position in the main game. Upgrade bar collects 1 level either for each Lust feature triggered or for each Scatter landing next to the center position in the main game. Upgraded Redemption Spins triggers a feature for its row in addition to column.

Devil coin is a special coin that can land during Redemption Spins and unlocks feature of it's column. If Redemption Spins is upgraded then it also triggers a feature for it's row.

Debt to be Paid

The max payout of the game is 13,180 times the base bet.

When the total win exceeds this amount the game round will end and 13,180 times the base bet is awarded.
