Game Features

Thor is a high-volatile slot with a high feature hit frequency. The pay out mostly lies within the Thor's Lightning Bonus feature - both in main game but also with it's enhanced functionality in Asgard Spins.

Thor's Lightning Bonus!

Triggered by Thor's Lightning Bonus symbol on reel 5. Awards one of Thor's features - multiplier, random sticky Wilds or sticky Wild Reels.

Thor nudges down and awards a respin and the feature is active as long as Thor is on the reels.

Rune Raze

Randomly triggered on any spin. When activated, all runes will be turned into one specific rune symbol.

Hammer Time

Randomly triggered on any spin. When activated, all high paying symbols - Ring, Goblet, Axe and Helmet - will be turned into Thor's Hammer symbols.

Scatter Energy Collect

Landing two or more Scatters triggers Scatter Energy Collect feature, unleashing it's power to reach the Asgard Spins. As long as there are any Scatters on the reel, the Scatters will nudge down one step and respin all reels without Scatters.

Asgard Spins will be activated if you collect energy from three Scatters. Any additional Scatter Energy will award +2 extra spins in Asgard Spins.

Asgard Spins

Thor's Lightning Bonus will activate more frequently on reel 5 during the Asgard Spins. Thor can also award +2 extra spins, along with multiplier, random sticky Wild or sticky Wild reels.

Thor will award an additional feature for each nudge, stacking up multiple features as long as Thor is visible on the reels.
