Game Features

Warrior Graveyard is all about the xNudge® feature, both in main games as well as the Free Spins. Chase that massive win multiplier and keep those deadly wins coming!

xNudge® Tombstone Wilds

A 3 row high wild symbols exists on reel 2, 3, 4 and 5 and will always nudge to fully visible.

Several Wild multipliers add to each other for a total Wild multiplier on the line win for huge wins!

Warrior Attack

Land 3 or more of the same warrior symbol landing on the reels will trigger Warrior Attack. The triggered symbol will nudge to cover the reel and increase payout multiplier on each nudge. Then all symbols will move to the left and payout according to payline and pay table. Tombstone xNudge wilds are always part of the Warrior Attack win lines.

Graveyard Spins

Landing 3, 4 or 5 scatters will trigger 8, 10 or 12 Graveyard Spins. The Tombstone Wilds will award an unlimited win multiplier that sticks for the entire feature.

For every step the Tombstone wild nudges, the win multiplier will increase by 1.

Death Spins

Landing 6 scatter symbols triggers 14 Death Spins. Tombstone Wilds will stick to the reels once landed and award a multiplier for each nudge. For every wild nudge, the multiplier increases by one.

Each additional scatter will add an additional spin.
